

Disease Information - Document2

Disease Name: Influenza (Flu)

Description: Influenza is a contagious respiratory illness caused by influenza viruses that infect the nose, throat, and sometimes the lungs. It can cause mild to severe illness, and at times can lead to death.

ICD Code: J11.1

Disease Name: Common Cold

Description: The common cold is a viral infection of your nose and throat (upper respiratory tract). It's usually harmless, although it might not feel that way. Many types of viruses can cause a common cold.

ICD Code: J00

Disease Name: Bronchitis

Description: Bronchitis is an inflammation of the lining of your bronchial tubes, which carry air to and from your lungs. People who have bronchitis often cough up thickened mucus, which can be discolored.

ICD Code: J40

Disease Name: Gastroenteritis

Description: Gastroenteritis is an inflammation of the stomach and intestines, typically resulting from bacterial toxins or viral infection and causing vomiting and diarrhea.

ICD Code: A09

Disease Name: Urinary Tract Infection (UTI)

Description: A urinary tract infection (UTI) is an infection in any part of your urinary system — your kidneys, ureters, bladder and urethra. Most infections involve the lower urinary tract — the bladder and the urethra.

ICD Code: N39.0

Disease Name: Conjunctivitis

Description: Conjunctivitis, also known as pinkeye, is an inflammation of the conjunctiva, the transparent membrane that lines your eyelid and covers the white part of your eyeball. When small blood vessels in the conjunctiva become inflamed, they're more visible, which is what causes the whites of your eyes to appear reddish or pinkish.

ICD Code: H10.9

Disease Name: Dermatitis

Description: Dermatitis is a general term that describes a common skin irritation. It has many causes and forms and usually involves itchy, dry skin or a rash on swollen, reddened skin. Or it may cause the skin to blister, ooze, crust or flake.

ICD Code: L30.9

Disease Name: Anemia

Description: Anemia is a condition in which you lack enough healthy red blood cells to carry adequate oxygen to your body's tissues. Having anemia can make you feel tired and weak.

ICD Code: D64.9

Disease Name: Hypothyroidism

Description: Hypothyroidism (underactive thyroid) is a condition in which your thyroid gland doesn't produce enough of certain crucial hormones. Hypothyroidism may not cause noticeable symptoms in the early stages.

ICD Code: E03.9

Disease Name: Appendicitis

Description: Appendicitis is an inflammation of the appendix, a finger-shaped pouch that projects from your colon on the lower right side of your abdomen. Appendicitis causes pain in your lower right abdomen.

ICD Code: K37
